Sign-in credentials

Summary

- User does not have console management access

Console password Disabled | Manage
Assigned MFA device Not assigned | Manage
Signing certificates None

Access keys

Use access keys to make secure REST or HTTP Query protocol requests to AWS service APIs. For your protection, you should never share your secret keys with anyone. As a best practice, we recommend frequent key rotation. Learn more

2. Create access key

Access key ID	Created	Last used	Status
---------------	---------	-----------	--------
